PROJECTS

❖ **Music-Player** [Link]
   Tech Stack: ReactJs,TailwindCSS
   Developed a music player with search functionality that allows users to find specific tracks. It retrieves 30-second previews using the Spotify API, enhancing user engagement and accessibility.

❖ **Bubble Game** [Link]
   Tech Stack: HTML,CSS,JavaScript
   In this fun bubble game, you have 30 seconds to pop as many target number bubbles as you can. Each time you hit a target bubble, your score goes up by 10 points. The goal is to maximize your score by hitting as many bubbles as possible before time runs out. It's fast-paced, exciting, and a great way to test your reflexes!

❖ **Modern Portfolio** [Link]
   Tech Stack: HTML,TailwindCSS,JavaScript
   I created a fully responsive portfolio using Tailwind CSS and JavaScript, focusing on a sleek UI and seamless UX With dynamic dark mode.
